

KENTUCKY

STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM (STIP) For FY 2005-2007

AMENDMENT #2004.239

I. Proposed Action:

The Kentucky Transportation Cabinet (KYTC) hereby submits the following transportation project activity for inclusion in the FY 2006 element of the FY 2005-2007 STIP:

Location: Statewide

Scope of Activity:

Breakout project from Zvarious 99-1065.02 (shown on page 6 of 6 of the Air Quality "Nonexempt" state-funded project phases) to identify project for updating and maintaining the Statewide Cultural Resources GIS Database. The Statewide Cultural Resources GIS Database is used to identify archaeological sites and historic structures within the Commonwealth of Kentucky. The GIS databases and coverages are utilized as a meaningful resource during project planning and design, which can assist in avoiding or minimizing adverse impacts to significant historic properties, thus, providing means to shorten project schedules and to reduce project costs. The KYTC will administer the project funding and reimbursements will be made to the Kentucky Heritage Council.

II. Additional Remarks:

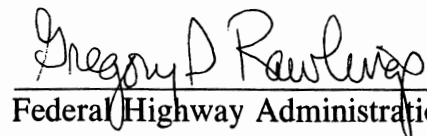

The project funding will be \$250,000 of STP funds in lieu of state funds. The proposed utilization of STP funding will become part of the 2004 STIP end of Fiscal Year 2005 and 2006 "fiscal constraint" recalculations.

III. Amendment Approval:

Amendment Recommended for Approval:

Approval of STIP Amendment:
